INTERNATIONAL SEARCH REPORT

International application No.

PCT/US05/28791

Box IV TEXT OF THE ABSTRACT (Continuation of Item 5 of the first sheet)						
A method and an apparatus to design a processing system using a graphical user interface (GUI) are described. The method includes allowing a user to define a transfer function via a GUI (tien 211). The method may further include submitting the transfer function to a processing device maker associated with a processing device (215). The processing device maker may generate processing device code without intervention by the user (215). Furthermore, the processing device may execute the processing device code to perform the transfer function defined (220).
